

Why Advantage?

Streamlined Process

We live in an ever changing world full of creative minds and desires. Our newly designed streamlined process allows us to quickly shift those desires into realities faster than before. Advantage was born from that process to see that those realities are met with exceptionally shorter lead times!

Outstanding Value

We have developed an industry leading manufacturing process which gives us the ability minimize costly overage. This allows us to produce one of the sturdiest boxes, and the most superbly finished components available in today's market, at a price point well below other comparable products. This, combined with the centralized location of our main production plant, allows us to offer a lower embedded shipping cost, which we pass along to you.

Collaborative Harmony

It all comes together with shorter lead times that match our classic Signature Series in combination with the most popular paints, door styles, and cabinet boxes extending from Designer series. The Advantage Line was created to offer you the quality that you are accustomed to while meeting your timely expectations.

Uniquely Accessible

Our United States based production facilities are immersed in the manufacturing of Full Access cabinetry. With this direct focus, and our vertically integrated processes, we are able to construct high quality cabinetry on demand. Our skilled craftsmen and our fully automated equipment blend together in perfect union, creating a benchmark in fabrication. It is what sets us apart, and has given us the advantage to rise to the top of our industry.
